WEST VIRGINIA BULLETIN NO. WV300-6-11

April 13, 2006

SUBJECT: LTP – WV 2006 Initial EQIP Allocations

Purpose: To provide FY 2006 EQIP Initial Allocations

Expiration Date: This bulletin expires September 30, 2006

The attached chart shows the initial FY-06 EQIP funding for Local Work Groups. Actual funding may vary, depending on the dollar value of applications which can be funded. Applications must be selected for funding based on the ranking points. In the event that two or more applications have the same ranking points, the Tracking Code in ProTracts will be used as the tie breaker. The larger Tracking Code number will be given priority for funding. As you can see from the attached chart, we have held very few funds at the state level for cost overruns and errors in applications. Field office staffs are encouraged to finalize contracts in the order of ranking to allow full funding of each approved application.

As soon as practical, the lead DC in each LWG will email a list of those applications approved for funding to the ASTC-Programs. At a minimum, the list should include the county, fund code, ranking score, tracking code, contract number, applicant name and cost to the government. Indicate on this list those applications approved for funding. This list will serve as the basis for placing the funds you need into your county accounts to obligate your approved contracts. Any changes to application ranking scores or contract costs should be transmitted to the Lead DC of the LWG and to the ASTC-Programs so that funding adjustments can be made.

I encourage ASTC-FO's and DC's to share this with LWG members in order to keep them informed of EQIP activities. If you have any questions, please contact Herbert Andrick, ASTC-Programs at (304) 284-7560.
